Final competition of the Hult Prize program

The final phase of the American student creation program of Start-Ups "Hult-Prize 2020" organized by the entrepreneurship house of ENSH in collaboration with the HEClub - ENSH, was held on Saturday January 11, 2020 at the Cinema El Sahel hall located in Cheraga (W. Alger).

The final brought together six teams of students who brilliantly passed the preselection phases out of sixty teams. During this event, a jury made up of managers from the socio-economic sectors evaluated and selected the first three projects presented as follows:

First : NH-Harmony.

Second: Grow.

Third : The ATACORS.

Celebration of the Berber new year, Yannayar

The school, in collaboration with the HEC science club, organized on January 13, 2020 the celebration of the Amazigh New Year "Yennayar 2970". The program focused on the exhibition of handicrafts, jewelry, traditional clothing and culinary art, made and prepared by the students of the school.

The study day on the risk of flooding in an urban environment in the context of climate change

The ENSH in collaboration with the National Agency for Integrated Water

Resources Management (AGIRE), organized on January 15, 2020 a study day on the risk of flooding in an urban environment in the context of climate change.

This scientific and technical event brought together university researchers as well as experts and managers from different sectors representing ministries, departments and agencies as well as civil protection.

workshop for the plan strategic on food security 2020 - 2030

During the workshop organized by the DGRSDT from 2nd to 4th February 2020 in Biskra on the Algerian strategic plan for research and innovation on food security 2020-2030, the ENSH actively participated in workshop n° 01 dedicated to Water-Soil-Energy theme. The main objective of this workshop was to establish a national multispectral strategy to ensure sustainable food security for the country.

Conference on the new challenges of the public water service

Under the high patronage of Minister of Water Resources **Arezki BARAKI**, a study day was organized on Thursday, February 06, 2020, on the theme "Water in the city: the new challenges of the public water service ", Held at the International Conference Center (CIC), in Algiers.

This event brought together experts and as well as teacher-researchers from the ENSH whose Director **Pr. MIHOUBI M K** presided over the morning plenary session.

Intra - Africa - Academic - Mobility - Scheme

As part of the European Union project "Intra-Africa - Academic - Mobility - Scheme", a kick-off meeting to launch the project was held on 06-07 and 08 February 2020 in Brussels in Belgium. This project brings together five universities from five different African countries:

- Rhodes University, South Africa (RU)
- National Higher School of Hydraulics (ENSH), Algeria.
- Federal University of Technology, Minna, Nigeria (FUTMINNA).
- Makerere University, Uganda (MU).
- University of Kinshasa, Congo (UNIKIN).

The objective of this program is to improve the skills and competences of students and university staff from African countries.

Collaboration agreement ENSH - IRD

As part of exchanges with economic partners, the ENSH signed a research collaboration agreement with the Research Institute for Development (IRD).

The purpose of this contract is to define the terms of collaboration between the ENSH and the IRD with a view to jointly carrying out a research program on the theme: "Large watersheds: integrated approach from the slope to the coast in a context of climatic and anthropic variability, hydro climatology, erosion and sediment transport ".
